

All of the Second Chance Animal Center's programs and services are designed to create a community of people who are enlightened, compassionate and concerned about the responsible care and protection of animals.

Our humane education programs help foster the skills, knowledge and sense of responsibility young people need to express kindness, empathy and respect for all living beings. Our goals are to teach children about the intrinsic needs and worth of animals and to encourage humane attitudes and actions towards them, and the environment that we all share.

Reservations for camp will only be accepted by mail, and are available on a first come – first serve basis. All applications must be accompanied by a non-refundable \$25.00 deposit, with the remainder of the fee due by June 19th, 2009

Check with your doctor for any allergies. Children will be around a lot of different animals.
